<ul style="list-style-type: none"> - 50 Million messages per month - Encrypted Queues - Unlimited Client Applications
Anypoint MQ -250MM (Add-on)
<ul style="list-style-type: none"> - 250 Million messages per month - Encrypted Queues - Unlimited Client Applications
Anypoint Data Gateway (Add-on)
<ul style="list-style-type: none"> - 1 Production VPC - 1 Production VPN connection - 1 Pre-Production VPC - 1 Pre-Production VPN connection

⁽¹⁾ Anything listed as unlimited is subject to technical limitations as defined in Documentation

⁽²⁾ All functionality offered in the cloud unless otherwise stated

⁽³⁾ Each additional Pre-Production Core/VCore purchase comes with one additional Design VCore

⁽⁴⁾ Flexible Hybrid Deployment: Up to the capacity limit identified in the Order Form, Customer may use either Cores or VCores in accordance with the (as the case may be) license to Software and Access to Cloud Offerings terms as provided for in the Master

Subscription Agreement. To the extent that Customer seeks to exchange a Core for a VCore or vice versa (which exchange shall occur no more than once per month), Customer's authorized representative shall submit a Flexible Deployment Notification available from the [Product Subscription Plans page](#) to MuleSoft (i) requesting license keys for Cores or log-in credentials for VCores for the additional capacity being added, and (ii) covenant that, upon issuance of the additional Cores or VCores, Customer will deprecate the usage of the Cores or VCores no longer used. Within forty-eight (48) hours of receipt of such Flexible Deployment Notification, MuleSoft shall issue license keys for Cores or log-in credentials for VCores to Customer.

⁽⁵⁾Multi-instance: Ability to operate multiple instances of Anypoint Runtime Manager on-premises - Only available if Anypoint Platform Base Subscription, On-premises Management, API Manager and API Analytics, and Platinum Subscription are purchased together.

⁽⁶⁾Managed API traffic: Requests/response message count going through an endpoint that associated by the API gateway with an API version and as such, is enabled with Analytics and policies can be applied to it.
