

Subscription Plans

Effective for customer purchases made on or after June 1, 2018

Anypoint Platform Base Subscription^{(1),(2)}
<ul style="list-style-type: none">- 2 Production Cores/VCores- 4 Pre-Production Cores/VCores- 4 Design VCores⁽³⁾- Anypoint Runtime Manager- Anypoint Design Center: Flow designer, API designer, Anypoint Studio, Anypoint Connector Devkit- DataWeave- Insight- Anypoint Enterprise Security- Unlimited API Portals (API documentation only)- Anypoint Exchange- Unlimited Select Connectors- 2 Production VPCs- 2 Production VPN connections- Unlimited Production and Pre-Production Environments- Gold level support
Anypoint Platform - API Management Solution^{(1),(2)}
<ul style="list-style-type: none">- 1 Production Gateway Cores/VCores- 2 Pre-Production Gateway Cores/VCores- 2 Design VCores⁽³⁾- When deployed with an API Gateway no other connections besides HTTP/S, Web Services, JDBC, JMS may be used- An API Gateway may not be used for batch processing or polling.- Anypoint Runtime Manager- Anypoint Design Center: Flow designer, API designer, Anypoint Studio, Anypoint Connector Devkit- DataWeave- Insight- Anypoint Enterprise Security- Unlimited API Portals (API documentation only)- Anypoint Exchange- Unlimited Select Connectors- 2 Production VPCs- 2 Production VPN connections- Unlimited Production and Pre-Production Environments- Gold level support- API Management- API Analytics

- [Unlimited API Portal Registered Applications](#) (application objects created through the organization's API portals)
- Unlimited Managed API traffic⁽⁷⁾ in Production and Pre-Production

Platinum Subscription (Add-on)⁽²⁾

- [High Availability](#)
- [External Identity Management Integration](#)
- [Business Groups](#)
- [Global Cloud Deployment](#)
- Upon request, Flexible Hybrid Deployment⁽⁴⁾
- Platinum level support
- [EU control plane deployment option](#) (available only at time of initial subscription purchase⁽⁶⁾)

Titanium Subscription (Add-on)⁽²⁾

- [Application performance monitoring](#)
- [Distributed log management and search](#)
- [Real-time metrics at 10 second intervals](#)
- [Enterprise alerting at 5 second intervals](#)
- [End-to-end transaction tracing](#)
- [Dependency mapping](#)
- [Hyperscale Storage \(200 GB per Production VCore plus 50 GB per Pre-Production VCore\)](#)
- Flexible data storage deployment
- [Self prescribed data retention](#)
- Titanium Level Support
- The first 15 calendar days of the Subscription Term shall be defined as the "Provisioning Period". The Provisioning Period is an integral component of Anypoint Monitoring hosted service. During the Provisioning Period, Customer will have limited access to the Anypoint Monitoring features.
- [Customizable and templated dashboards](#)
- [High Availability](#)
- [External Identity Management Integration](#)
- [Business Groups](#)
- [Global Cloud Deployment](#)
- Upon request, Flexible Hybrid Deployment⁽⁴⁾
- [EU control plane deployment option](#) (available only at time of initial subscription purchase⁽⁶⁾)

API Manager and API Analytics (Add-on)^{(1),(2)}

<ul style="list-style-type: none"> - API Management - API Analytics - Unlimited API Portal Registered Applications (application objects created through the organization's API portals) - Unlimited Managed API traffic⁽⁷⁾ in Production and Pre-Production
<p>On-premises Management + API Manager & Analytics + Platinum (Add-on group)</p> <ul style="list-style-type: none"> - Purchasing these three products together as add-ons to the Anypoint Platform Base Subscription entitles customer to Anypoint Platform On-premises Edition
<p>Anypoint Platform Base Subscription 2X2 renewal</p> <ul style="list-style-type: none"> - Same as Anypoint Platform Base Subscription except: - 2 Production Cores/VCores - 2 Pre-Production Cores/VCores
<p>Anypoint VPC (Add-on)</p> <ul style="list-style-type: none"> - 1 Production VPC - 1 Production VPN connection
<p>Anypoint MQ Base Subscription (Add-on)</p> <ul style="list-style-type: none"> - 500 Million API Requests per month - Encrypted Queues - Unlimited Client Applications
<p>Anypoint MQ -1MM (Add-on)</p> <ul style="list-style-type: none"> - 1 Million messages per month - No Encrypted Queues - 10 Client Applications
<p>Anypoint MQ -50MM (Add-on)</p> <ul style="list-style-type: none"> - 50 Million messages per month - Encrypted Queues - Unlimited Client Applications
<p>Anypoint MQ -250MM (Add-on)</p> <ul style="list-style-type: none"> - 250 Million messages per month - Encrypted Queues - Unlimited Client Applications

Anypoint Data Gateway (Add-on)
- 1 Production VPC - 1 Production VPN connection - 1 Pre-Production VPC - 1 Pre-Production VPN connection

⁽¹⁾ Anything listed as unlimited is subject to technical limitations as defined in Documentation

⁽²⁾ All functionality offered in the cloud unless otherwise stated

⁽³⁾ Each additional Pre-Production Core/VCore purchase comes with one additional Design VCore

⁽⁴⁾ Flexible Hybrid Deployment: Up to the capacity limit identified in the Order Form, Customer may use either Cores or VCores in accordance with the (as the case may be) license to Software and Access to Cloud Offerings terms as provided for in the Master Subscription Agreement. To the extent that Customer seeks to exchange a Core for a VCore or vice versa (which exchange shall occur no more than once per month), Customer's authorized representative shall submit a Flexible Deployment Notification available from the [Product Subscription Plans page](#) to MuleSoft (i) requesting license keys for Cores or log-in credentials for VCores for the additional capacity being added, and (ii) covenant that, upon issuance of the additional Cores or VCores, Customer will deprecate the usage of the Cores or VCores no longer used. Within forty-eight (48) hours of receipt of such Flexible Deployment Notification, MuleSoft shall issue license keys for Cores or log-in credentials for VCores to Customer.

⁽⁵⁾ Multi-instance: Ability to operate multiple instances of Anypoint Runtime Manager on-premises - Only available if Anypoint Platform Base Subscription, On-premises Management, API Manager and API Analytics, and Platinum Subscription are purchased together.

⁽⁶⁾ Effective as of Dec 15, 2017, available only at time of initial Anypoint Platform Base Subscription as a one-time configuration option. Add-on purchases will be configured per the original control plane deployment option selected at time of purchase.

⁽⁷⁾ Managed API traffic: Requests/response message count going through an endpoint that associated by the API gateway with an API version and as such, is enabled with Analytics and policies can be applied to it.
